

A-Z Recycling Guide

The Tehama County A-Z Recycling Guide is funded by a grant from the California Department of Resources Recycling and Recovery (CalRecycle).

The Tehama County Solid Waste Management Agency encourages citizens to **Reduce** waste, **Reuse**, **Recycle** and **Rebuy** products with recycled content. Please contact the organization or business listed before bringing items for recycling. Only donate clean items in reusable condition. Please make your donation part of the solution and not part of the problem. **DO NOT LEAVE UNSOLICITED DONATIONS AT ANY LOCATION.** There are hefty fines for illegal dumping.

Should your business be part of the A-Z Recycling Guide? If you'd like to be listed, contact the Tehama County Solid Waste Management Agency at 528-1103.

Agricultural Material

Used Motor Oil - accepted at the Landfill free of charge year round during Landfill business hours. Check in at scalehouse before pumping. All used motor oil is recycled.

Pesticides - accepted during the Hazardous Waste Collection Events. Contact the Landfill at 528-1103 to schedule a drop-off. Small fees apply for businesses.

Plastic Pesticide Containers - accepted at the Landfill free of charge year round during Landfill business hours. There is no limit to the number of triple rinsed and quartered containers with lid, handle and label removed that are accepted.

Tehama County/Red Bluff Landfill

19995 Plymire Rd., Red Bluff. 528-1102

Aluminum Foil & Pie Pans

Most recycling centers accept but do not buy back aluminum other than beverage containers. Some accept aluminum as scrap metal and will pay you a different price than they pay for beverage containers. Please call your favorite recycling center for details.

Appliances, Major

When you purchase a new appliance, many dealers take away your old one. There is a special item fee for dropping off appliances at the Landfill in addition to the weight of the item. There is an additional fee for refrigerated appliances containing Freon. To avoid the Freon fee, the refrigerant must be removed by a certified technician and the Authorization Certificate must be presented at drop-off. Some chest freezers, pre-1972 washing machines, sump pumps, and electric space heaters contain electrical switches with about 3.5 grams of mercury each. The switches must be removed. Please call 528-1103 for more information. Many appliances have motors with oil that must also be removed.

Fluorescent lights contain toxic mercury vapor and CANNOT be disposed of in the garbage. Mercury

causes nerve damage and birth defects in humans and animals. If released into the environment it can contaminate our air, soil and water. To properly dispose of fluorescents and other mercury containing items, see *Household Hazardous Waste*.

Fluorescent Lights, CFLs (Compact Fluorescent Lights) & Ballasts

Due to small amounts of mercury, it is against the law to place fluorescents in your household trash or recycling bin.

Tehama County Businesses, Schools, etc.:

Tehama County/Red Bluff Landfill

19995 Plymire Rd. RB 528-1102

Often times free paint is available for reuse at the Tehama County/Red Bluff Landfill. Organizations or individuals interested in using donated paint for reuse are welcome to take paint during landfill operating hours. Please note, inventory fluctuates.

Pesticide

The best way to transport or dispose of pesticides is according to the directions on the label. Very old containers may contain product that now is banned for use. These must be disposed of as hazardous waste. To determine if a pesticide is currently banned, contact the Tehama County Agriculture Department at 527-4504. Unlabeled, banned, or unused pesticides are considered hazardous waste and are to be disposed at the facilities listed below. Please call for specific collection dates. Businesses must call in advance of disposal, small fees apply.

Tehama County/Red Bluff Landfill and Corning HHW Facilities

Call for hours of operation and drop-off locations
. 528-1103

Pet Supplies

Donate leashes, collars, fresh food, blankets, bedding, and flea and pest control products, to local animal shelters, humane societies, rescue groups. Sporting Goods

While larger communities may have private sector organizations that buy and sell used sporting goods, you might want to look closer to home. Contact the local or county Park and Recreation Department to donate items for use in community based programs. Youth and adult athletic leagues will often accept used equipment appropriate to their sports. YMCA, Boys' and Girls' Clubs, and organizations offering summer youth programs might all be able to use your sports equipment. Call to make sure your items can be accepted.

Styrofoam

See *Packaging*. Styrofoam is not recyclable in Tehama County

Telephones

Telephones that plug into the wall are electronic waste. Contact the Landfill for information. Most cellular phone manufacturers accept used phones for recycling. Some organizations accept cellular phones to recycle as fund raising programs.

Tehama County/Red Bluff Landfill

19995 Plymire Rd. RB 528-1102

Televisions

See *Electronic Waste*. E-waste is recyclable and banned from California Landfills

Thrift Stores

See *Clothing and Household Items*.

Tires

Tehama County/Red Bluff Landfill

19995 Plymire Rd. RB 528-1102

Waste Tire Products

3820 Hwy 99W. Orland 865-4588

Tools

Consider donating used tools in good condition to high school shop or vocational programs, community colleges, Habitat for Humanity, Salvation Army, local Adult Education or ROP programs. Donate to organizations that will re-sell them for fundraising. Please contact the organization in advance to be sure your donation can be accepted.

Farm Sanctuary www.farmsanctuary.org

19080 Newville Road, Orland 865-4617

Red Bluff Garden Club

RB. 527-2226

Wood

- Creosote-treated wood is commonly found in railroad ties and telephone poles. It is banned from the Tehama County/Red Bluff Landfill. Contact the Landfill at 528-1103 for disposal options
- See *Pallets*
- See *Construction and Demolition*

X-Ray Film

Consider contacting medical, dental or chiropractic teaching colleges if you have exposed x-ray films to offer.

Yardwaste

Tehama County/Red Bluff Landfill

19995 Plymire Rd. RB 528-1102

Christmas trees are Recyclable! All real trees must have decorations, including flocking, and tree stand removed.

What is Grasscycling?

Grasscycling means that lawn clippings stay on the lawn. This encourages a healthy lawn, as clippings add valuable nitrogen to the soil. For best results, use a mulching mower and mow less than 1/3 the height of the grass.

What is Vermicomposting?

Vermicompost is a natural process of using earthworms (and associated micro-organisms) to break down organic waste and convert it into a rich material loaded with plant nutrients called worm castings. This dramatically speeds up the composting process and boosts the nutrient content of the end product. Check out [vermicomposting](#) to build your own worm bin.
