

# The LANDFILL in Limbo

Did you know that kids in Japan and western Europe throw away less trash than kids in the United States? You can help shrink the landfill by not throwing away as much stuff. You can make two choices within each circle in the maze. Make a good choice, and you'll see the landfill shrink. Make the wrong choice, and you'll dead-end in a trash pile when you exit each circle.

Clean spills with a sponge.
