WASTE AWARENESS
THROUGH EDUCATION
JANUARY 2025

Collecting CRV beverage containers is an easy way to raise money for classroom supplies and activities. You can redeem CRV on eligible glass, plastic, and aluminum beverage containers. You'll get 5¢ for each container under 24 ounces and 10¢ for each container 24 ounces or larger. Just make sure to separate them by material. Contact the [Agency](#) for tips and for *free* classroom recycling bins.

Do you want to expand your school's waste reduction practices beyond the classroom? Agency staff have assisted several schools with cafeteria waste sorting programs. The program is designed to recycle and divert more waste from our landfill that comes from the many schools in Tehama County. Concerned about funding? Fear not! The Agency has grant funds available to purchase all the supplies needed and can provide knowledgeable staff to teach your students all about waste reduction. The Agency can also assist in starting an on-site composting program to help "feed" your school's garden.

Call our office or [send us an e-mail](#) to learn more or to schedule a meeting with our staff.

REMEMBER: EVERY ACTION MAKES A DIFFERENCE

What's recyclable at your school?
